18. Access to E-Library facilities during lockdown period, like access to E- Books, E- Journals and other online resources from the college library system.

19. Extracurricular activities (Webinar, Competition, NSS etc..)

20. Overall impression about College

A BRIEF REPORT OF STUDENTS' SATISFACTION SURVEY

As part of IQAC initiative and in view of Pandemic, the Students' Satisfactory Survey was conducted in Online mode by using Google Form. The Questionnaire was redesigned in view of online lectures. A weblink of the questionnaire (which consisted of aspects like teaching-learning, online examinations, online admissions, accessibility to Principal, Staff, Website, Library resources etc. and overall impression about the institution) was posted in the WhatsApp groups of the varied classes and 440 responses were received. Some students reported that they sometimes faced network issues, non-affordability of data-packs and non-availability of infrastructural facilities like laptops, smart phones, internet connections at their residences.

IQAC team discussed the responses with the departmental Heads and faculty for further improvements in teaching-learning process and usage of ICT tools in the online mode of teaching. Teachers suggested that workplace IDs be given to them through GOOGLE SUITE so that they can utilize the varied features of Google Meet and/or Google Suite. They also suggested the purchase of ZOOM Webinar package for conducting various co-curricular activities.
